COPPER COMMANDO FOR MOTHER'S DAY

Anytown, U. S. A.
Mother's Day, 1945

Dear Son:
This is Mother's Day. All day long I've thought of you - and missed you - and wondered where you are - and how you are.

I've thought so much today of other Mother's Days when you were here with me - and of how good you've always been to me. But now everything is changed. You are far away on this Mother's Day.

Today I've tried to think of something you would like to have from home. I decided that next to news of us, you would like to have news of your friends. So I'm sending you this copy of Copper Commando with the names of all of your buddies in service in it.

Son, we wanted to include the address of each of the boys but the censors said it might

be giving valuable information to the enemy, so we couldn't do it. If you want the address of any of the boys or girls listed, write to the Copper Commando, 112 Hamilton Street, Butte, Montana and they will send it to you.

We want you to know that in our own way we are trying to do everything we can for you. We know that it is no picnic out there where you are. We also know that there isn't much we can do for you now except keep you supplied with whatever you need. We hope we are doing that. Your Pop hasn't missed a shift since Pearl Harbor and we buy War Bonds out of each check.

I'm praying that by next Mother's Day lists of boys and girls in service will no longer be needed.

Be careful, son, and come home to us.
Your Mom

MAY 11, 1945

JOHN SULLIVAN

RAYMOND B. SULLIVAN

JAMES SULLIVAN

THE NAME IS SULLIVAN

ALL America remembers the five Sullivans, those five fine brothers who went down with their ship in the Pacific.

America had its five Sullivans but Montana has its three Sullivans. They are only one of many of the boys from American families who have marched forth for Uncle Sam.

On this Mother's Day, in paying tribute to the thousands of former miners, smeltermen, engineers, craftsmen and many others, we want to pay tribute to the three Sullivan brothers. These Montana boys, on the far flung battlefronts of the world, are upholding the great tradition of Montana.

Raymond B. Sullivan is in the Navy where he has been for about a year. A former Butte boy, he worked in the mines for several years before signing up with Uncle Sam. His brother, James, Butte miners will recall as a pipeman at the Emma. He had always worked in the mines prior to joining up with Uncle Sam. John, who is now in the Philippines, has been in the service for three years and prior to going over he worked at the Mt. Con as a miner.

Let us tell you a touching little story about John. We of your Labor-Management Committee newspaper think that this touching story is par-

ticularly appropriate on this day when we pause to pay our respects to mothers.

Recently John's wife, Mrs. Dorothy Sullivan of Butte, received the following letter which speaks for itself. It was written from the office of the chaplain of the 312th Bombardment Group somewhere in the Pacific and is signed by Father Snyder, Chaplain, A. U. S. It says: "Dear Mrs. Sullivan: Recently it has been my happy privilege to serve your husband in a spiritual way. While I am not his Chaplain and thus do not have the pleasure of being associated with him, I can assure you honestly that the good example he received from his loved ones back home is paying dividends now. He assisted at Holy Mass I offered on the beach and received Our Lord into his heart in Holy Communion. This was his Christmas gift to you; more he could not give, less he would not.

"Continue to pray for his spiritual safety and that of us all. That is my prayer for all 'my boys,' whomever I serve and also that before the end of the New Year, all may be home with their loved ones again, God willing, after having gained a just peace."

We think nothing more need to be said. It is so evident that, in this broad-gage war, all our men are brothers under the skin, all our boys are fighting for the same thing. And mothers of our fighting men all over the world are praying today for their safe return.

COPPER COMMANDO is the official newspaper of the Victory Labor-Management Production Committees of the Anaconda Copper Mining Company and its Union Representatives at Butte, Anaconda, Great Falls and East Helena, Montana. It is issued every two weeks . . . COPPER COMMANDO is headed by a joint committee from Labor and Management; its policies are shaped by both sides and are dictated by neither . . . COPPER COMMANDO was established at the recommendation of the War Department with the concurrence of the War Production Board. Its editors are Bob

Newcomb and Marg Sammons; its safety editor is John L. Boardman; its staff photographer is Les Bishop . . . Its Editorial Board consists of: Denis McCarthy, CIO; John F. Bird, AFL; Ed Renouard, ACM, from Butte; Dan Byrne, CIO; Joe Marick, AFL; C. A. Lemmon, ACM, from Anaconda; Jack Clark, CIO; Herb Donaldson, AFL, and E. S. Bardwell, ACM, from Great Falls . . . COPPER COMMANDO is mailed to the home of every employe of ACM in the four locations—if you are not receiving your copy advise COPPER COMMANDO at 112 Hamilton Street, Butte. This is Vol. 3, No. 19.

These Are Our Heroes

Copper Commando takes pride in dedicating this issue, on Mother's Day, to those of our fellow workers who have gone from various locations of the Company into the Armed Services of Uncle Sam. This issue represents a contribution, in time and effort, of families and friends of servicemen back home—from the ranks of labor and of management, from people of good will everywhere. To our men and women in service, then, a salute from all of us here at home!

The Americans shown in the picture to the right are establishing communication lines between the advancing American forces in Germany and units behind the border by laying copper wire.

Over two hundred Labor-Management, War Finance Committee members and other Bond

workers were at the Bond dinner held April 12 to hear Sergeant Moore tell of Infantry fighting

in the jungles of South Pacific islands. His talk brought the war to Anaconda.

Sergeant Moore impressed upon his listeners that we are fighting the grimmest, toughest and cost-

liest war in history. Equipment costs money. The cost of war not only goes on—it goes up. We're

all in this thing together, and we're in it to the finish. Buying War Bonds will help finish it.

Each of the American Bond workers shown on these two pages left the Bond dinner realizing

that it is a privilege to purchase War Bonds. In Axis countries civilians are assessed their share.

In America War Bonds build future security and the purchase of them will bring our boys home.

Anaconda Operating Department War Bond Drive Workers. From l. to r. front row: Norman Vaughn, Watchman; William Feddersen, Slag & Tailings; Neil Simonson, Local Tram; Harry Nazer, Local Tram; T. Here's the Great Falls Labor-Management Bond Committee. L. to r.: Jack Clark, Pete Fontana, Mike Rebar, E. S. Bardwell, Bob Cunningham. Department sub-committees work under their direction.

YES, folks in the Armed Forces, we salute you. And we're backing up our salute with production of war materials and the purchase of War Bonds. In addition to staying steadily on our jobs, so as to keep the needed supplies ready and on hand when you need them, we are going to dig in and get the cash for Uncle Sam which he has requested for the Seventh War Loan Drive. We know that you can't fight wars or do much of anything else without it.

Uncle Sam needs \$4 billions this time which is \$1 billion higher than any previous quota and he'll get it. That you can be sure of. Here on this page we show you some of the Labor-Management Bond Committee workers from the Operating department, the Foundry, the Crafts and Miscellaneous War Bond workers from the Smelter at Anaconda. Also shown are the Labor-Management Bond Committees from Great Falls and Butte. Space doesn't permit us to show all the folks in these locations who are working on their "time-off" week in and week out throughout the drive which begins May 14 and runs through the month of June. These workers are contacting each and every employee with a Bond pledge card in hand. These workers as well as the mothers are waiting anxiously for your return. They know that the more Bonds bought, and the sooner they are bought, the sooner you will be home. These Bond workers and all other Americans from the ranks of labor and of management are united in their effort to give you what you need and bring you back home again.

Here's the Bond Committee of the Butte Labor-Management Committee. L. to r.: Dave Reese, Eugene Hogan, John Cavanaugh, Bill McMahon and John Bird. Bert Riley is also a member of the Committee.
